Wow businesses by helping them improve caller experiences

Real Sounding Ai Voices

Increase the value of your business

Recurring Revenue Example

Apply Gotalk.ai to a base of 1000 customers for the RRP of £12.50 per month per customer

Apply Gotalk to all new customers packages, lets assume you onboard 15 new customers a month.

Stop paying for traditional Voice overs for new customers (average cost for this in industry is £65 per recording)

Monthly RR & Savings Generated

month 1 = **£13155**

Month 12 = **£26450**

Launch To Customers

End User Upgrade

Recurring Revenue For You

- OpenAI customer scripting of menu prompts and on-hold marketing messages from their business website
- Amazing quality AI voices for instant messages mixed with music
- Marketing message library – 10K+ professional recordings
- Easy management of compilations for different queues

- Audio compilations streamed or available as download files
- Messages & Christmas music playlist day/date scheduled
- Vast, license-free, music playlists and tracks library
- White label provisioning emails automation

Feature Rich SaaS Portal

The Typical Onboarding Process

- Reseller Partnership Agreement
- Set up email integration (DKIMs) so your portal emails service notifications to your customers from your email domain
- Confirm your RRPs you'd like to display in your portal so customers may be able to know the cost of packages and self upgrade
- Import your existing customers into your portal on the free Starter plan so customers can simply log in when they receive your portal link in your marketing emails
- Use our launch email series to invite your customers see the service

We'll work with your marketing to plan a bespoke launch campaign.
Full training & support for your sales, billing and provisioning teams by your dedicated PromptVoice account manager
Joint, virtual end customer demos by our experienced sales team, to help you win subscribing customers
Customers choose their subscription package & self upgrade through the portal
